LAX Liquid Yeast

Material Safety Data Sheet

Product Name of Product: LAX

1. PRODUCT AND COMPANY DETAILS

Chemical Name: Saccharomyces cerevisiae

Chemical Family: Kingdom Fungi, species Saccharomyces cerevisiae Composition: Proteins, nitrogenous substances, sugars, organic acids, DNA, and fat. It has a

high concentration of living, functional microorganisms (1 to 2×1010 cells/g).

Details of the supplier of the safety data sheet Name of Company: WHC Lab Ltd.

Emergency Contact Numbers

Director - Tony O'Kane: 087 948 3590

Quality & Sales - Philip Woodnutt: 089 406 8622 Accounts - Judith Moss: 086 896 1901

Address: WHC Lab, Prospect Lower, Newcastle, Co. Wicklow, Ireland, A63 H0K8

In case of an emergency please contact the local emergency services.

2. HAZARDS Classification

Other Hazards

LAX Liquid Yeast may release CO₂ if subjected to extremely high temperatures.

68876-77-7

99%

If contact occurs, immediately rinse eyes thoroughly with

Not classified

This product is not classified as dangerous according to CLP Regulation (EC) no 1272/2008.

3. INGREDIENT COMPOSITION

Concentration Classification (CLP) Components **Cas Registry Number**

Description of first aid procedures

Contact with Eyes:

4. FIRST AID PROCEDURES

Saccharomyces cerevisiae

Contact with Eyes:	water for a minimum of 15 minutes.
Contact with Skin:	Use soap and water to wash. When exposed to yeast, some people may experience allergic reactions; in this instance, please contact a dermatologist or other medical provider.
Ingestion:	Consuming too much yeast with a high concentration can result in digestive issues like diarrhea and cramping. In this instance, drink a lot of water.
Inhalation:	In the event of CO ₂ release in a closed setting, which occurs when LAX Liquid Yeast is exposed to extremely high temperatures, remove the individual to fresh air right away and call the local emergency services.
Allergens*	
LAX Liquid Yeast contains gluten (namely Barley). *EU Regulation 1169/2011 (Food Information Regulations) (Annex II)	

Symptoms and effects

5. FIRE FIGHTING MEASURES

Fire Suppression

Use the appropriate tools or media, such as water, foam, carbon dioxide, or dry powder, if

LAX Liquid Yeast can produce CO₂ at extremely high temperatures.

Effects both immediate and delayed are further indicated in section 11.

Advice for fire fighters Put on self-contained breathing apparatus and safety gear for firefighters, such as boots,

Avoid inhaling combustion fumes.

gloves, and goggles etc.

and using the product.

6. ACCIDENTAL RELEASE CONTROLS

LAX Liquid Yeast is not considered to be environmentally hazardous, but it should be

In the event of a small or large spill or leak, LAX Liquid Yeast is a liquid and shouldn't be handled as hazardous waste. It should be sent for sewage treatment after being heavily

There is a low risk of fire and explosion, under typical circumstances for handling, storing,

Wash with water using gloves, boots, and eye protection. If there is a CO₂ release and you're in a closed space, use ventilation or breathing apparatus. **Environmental precautions**

diluted with water. LAX Liquid Yeast decomposes naturally.

Safety measures, protective gear, and emergency procedures

Packaging Materials LAX Liquid Yeast is available in plastic polytainer packs. This material complies with relevant food-contact legislation, including, EU Regulation

Shelf life: 4 months from date of production, if seal is not broken, and if stored as outlined above.

thoroughly with cleaning supplies after.

8. EXPOSURE CONTROLS

day of use. Not suitable for freezing.

Note: Please refer to Sections 5, 6, 8, and 10, for more information.

For safe manipulation: Use air-tight containers. Avoid the container leaking. Control spills and residues by safely destroying them (section 6). To reduce toxicological risks: Avoid eating, drinking or smoking while performing the procedure, and wash your hands

guaranteed by the storage and handling conditions.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

12. ECOLOGICAL INFORMATION

LAX Liquid Yeast does not contain genetically modified organisms or materials. This product is not dangerous to the environment with respect to mobility, persistency and degradability, bio-accumulative potential, aquatic toxicity, and other data relating to ecotoxicity.

14. TRANSPORT **Applicable** Sea: **Applicable** Road/Rail:

This product is used in the food industry and contains no health-hazardous substances.

Applicable

No special disposal method required, except to be in accordance with all local, state,

provincial, and federal regulations when disposing of materials.
